

STAY COOL WITH BLACKHEAT™ EXTRA REACH GLOVES

Enjoy the same proven performance of BlueHeat®, now with an **extra long 560mm cuff** for above elbow coverage. Handle temperature affected items up to 150°C* with this unique BlackHeat™ glove.

Manufactured with comfortable cooling cotton material and coated with void-filling latex that produces a super wrinkle finish. The raised wrinkle texture minimises the surface area that contacts high temperature items, ensuring you can handle heated situations confidently.

The BlackHeat™ extended cuff helps reduce exposure to spills, splashes, or incidental contact with surfaces during long reach tasks or movement in tight spaces.

*Level 2 contact heat only on palm

*Not suitable for welding or any open flame

BENEFITS

- Extended 560mm long cuff for above elbow coverage
- Certified heat contact reduction through wrinkled latex coating
- Extraordinary gripping abilities reduces risk of dropping items
- Enables maximum dexterity for confident full-hand movement
- Built with breathable lightweight materials for cool comfort
